About the artist

Flavius Pisapia is an Italian sculptor, born in Bucharest in 1981, working in bronze, stone and ceramic. He grew up between the Romanian countryside and the Amalfi Coast among craftsmen and his father's paintings and sculptures, and committed fully to art in 2009.

His practice centres on original working models, biomorphic forms inspired by metamorphosis, archetypes and the organic forms of nature. Each model is a proposal for a commission, realised at scale in bronze or marble by leading foundries and stone-carving studios in Pietrasanta, Italy.

Solo exhibitions include Embodiments of Infinity (Cube Gallery, Goa, 2021) and Journey of Self Transformation (Cube Gallery, Goa, 2025, 2026). His work is collected internationally by corporate and private clients. He holds an MA in Transpersonal Arts & Therapy (England, 2014), a Diploma in Transformative Arts (England, 2011) and a BA (Hons) (Wales, 2005).

Commissions

My practice revolves around the making of original working models, which clients select from for a larger commission in bronze or marble. More than 30 working models are available for commission from my current portfolio, and each sculpture above six feet is limited to three editions.
